FUN ARENA – BESPOKE ENTRANCE TO 12,000 M² FOR FUN AND SPORTS!

Germany's most up to date fitness, trend sports and indoor family centre, Fun Arena, just north of Hamburg, in Henstedt-Ulzburg. The enormous FunArena hall includes everything imaginable related to sports and amusement. The 12,000 m² area is distributed over three floors.

At the heart of the complex is the 3,000 m² Fun World. This includes one of the main attractions, Canal Play, a 400 m² water world, which will delight nymphs and water babies of all sizes, with water slides, log rides and other fun things.

In addition, there is Europe's largest playground, with jungle gyms, swings and slides spread over 1,500 m², while adults are well attended to with everything from mini-golf to in-line hockey.

The sensational Event World is particularly attractive for the more sport-minded visitor. It is centred on an electro-kart race course. This is where fans of high-speed engines can compete again each other on a demanding track-in total safety and with zero emissions.

In addition, the Event World offers indoor soccer and a high rope course. To round off the comprehensive range of the complex, the Fitness and Wellness World offers the latest in athletic equipment, a swimming pool and a number of saunas. This is also where a restaurant takes care of the culinary needs of the Fun Arena's guests.

A Royal Prestige TALL Revolving Door provides access to this huge complex. The diameter and height excellent fits in the facade. The door is equipped with collapsible wings for emergency exit purposes and a canopy heater to prevent cold air coming in to the building. A rainwater drain is included in the facade, so the water is able to drain away from the roof.
